

TRANSFER AND ENTREPRENEUR CENTRE

Patenting at the OVGU

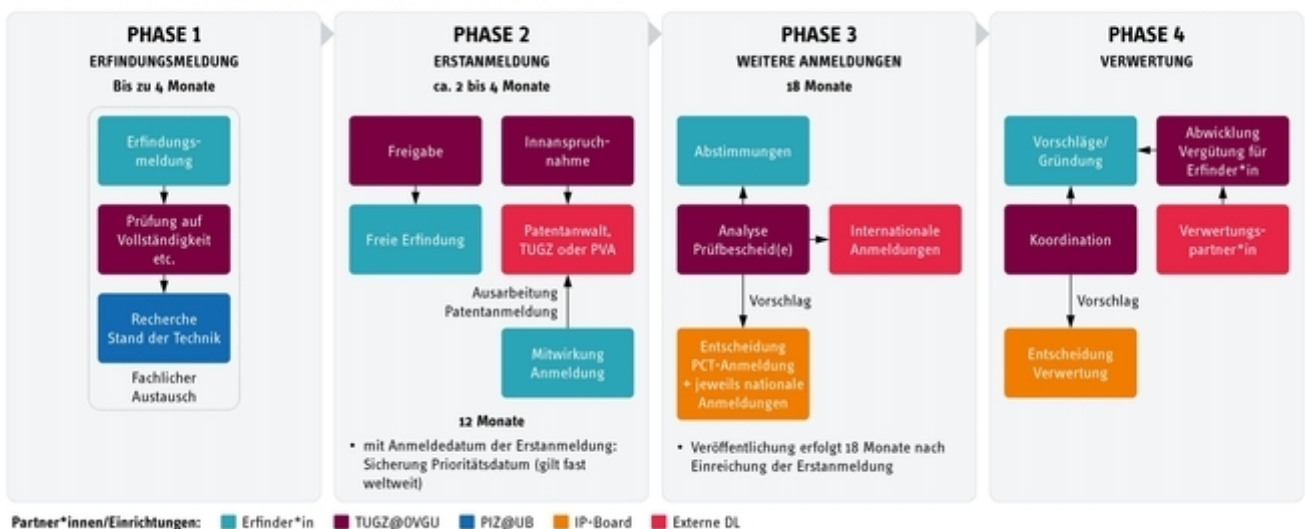

We see ourselves as a central **communication and service point** for both the university and the economy, **we provide contacts, reference persons and exploit research results**. Together with the scientists and researchers, idea-based procedures for the **application for intellectual property rights** and **exploitation** will be developed in the following steps:

- Prior art **research** conducted from the Patent Information Center (PIZ),
- **Evaluation** of ideas compared to the current state of art,
- **Definition of the registration strategie**, taking into account the researchers' interest in publishing,
- Drafting, filing and monitoring of the **application for intellectual property rights**, if necessary in cooperation with external patent attorneys,
- Locating potential **users** and negotiating for the purpose of concluding contracts (licensing, sale, spin-off)

Comprehensive **research of the state of art** can be provided to you by the Patent Information Center (PIZ) of the Otto-von-Guericke-University Magdeburg

Processes and steps for securing intellectual properties at the Otto von Guericke University are shown below.

VON DER ERFINDUNG BIS ZUR VERWERTUNG

Intellectual property rights and patents

You need information and research options on the subject of property rights and patents? Our patent and license service is at your disposal.

[Invention disclosure](#)

As part of a research activity you developed an own idea of an invention? We are happy to assist you in making an invention disclosure.

[more...](#)

[Guidelines for Invention Disclosures](#)

Any invention made by an employee of the OVGU has to be reported to the employer in writing for the purpose of legal certainty. This means that any invention arising during the term of an employment has to be reported in full to OVGU immediately in writing. It is strongly recommended that you use the Invention Disclosure Form for this purpose.

[more...](#)

[Instructions for the Invention Disclosure Form](#)

In case you are submitting an Invention Disclosure Form to the OVGU for the first time, we strongly recommend that you carefully read the instructions for completing the form presented on this website (see also the article "Guidelines for Invention Disclosures").
